COX LINES UP DEMOCRATS TO HIT TAX BOOST

Predicts Unparalleled Tax Rate If Relief Bill Becomes Law.

MEASURE COMES BEFORE HOUSE TODAY FOR VOTE

Urge Adoption of Hoppe Bill Authorizing Short Terms Notes.

(Special to the Advocate) Columbus, May 9.—Because of what he believes to be an approaching financial crisis in the affairs of the state, Governor Cox called to his office Friday morning the Democratic members of the General Assembly. What he said to them in part, follows:

"I deem it essential to the public interest to discuss with you gentlemen certain phases of the legislative situation. The subject is approached free from any political consideration, and is presented to you because as a group you have not been bound to the view which I want to talk about."

"What is transpiring in the legislature is not the result of the combined influence of the party leaders, but the party is the ruling policy itself an affair of the legislative leaders. The naked truth is that the legislature at this moment is and for months has been controlled and directed by two or three men living in the hotels of Columbus, who have no connection whatsoever with the law-making body, by virtue of any authority given by the people. It is a notorious fact that orders are issued by these men from their hotel to the legislative leaders, and time after time, so soon as they are received the legislature recesses in order that a party caucus can be held to bind members of the assembly under the force of partisan conference to the carrying out of the order in question."

"Never in the history of the state have so many caucuses been held, nor have the deliberations ever been broken into with such frequency and offhandedly. Now as the result of this situation as it has developed, which demands your intense attention as public officers, which ought to be brought to public notice."

"Notwithstanding the financial condition of the state government, and local subdivisions as well, it is proposed to assess outside of all limitations for a single purpose only, staggering sum of money."

"When the Fouts highway bill had passed the house, I called to the attention of the committee in the senate, having it in mind certain features which were indefensible and almost criminal. It proposed to release from liability every bonding company which under contract with the state stands behind road contractors who have defrauded the state. It did what public policy has always vetoed in the past by giving to the county commissioners the right to select road materials independent of federal or state voice. Promise was given to take these sections out of the bill, and it was done. It was further agreed that in order to insure concerted action between the legislative and executive branches, an amendment would be removed which imposed an additional annual levy outside the limitations of existing law. This understanding, however, has been violated and the 2-mill feature has been reinserted."

"Now that brings us to the mathematics of the situation:

"The tax duplicate of 1918 in Ohio was \$9,068,163,040. Largely through legislation which is now being forced through the assembly under the lash of the party-whip, amounts assessed by taxation would accumulate as follows:

\$4,534,031 under the proposed half-mill levy.

\$4,420,812 under federal aid.

18,36,326 under the proposed two-mill levy.

2,121,273 from automobile license.

9,168,163 from the one-mill levy by commissioners without vote from the people.

"This makes a total of \$39,180,687. Now bear in mind that additions must be made to this. First: The graduated automobile license proposal, which, by the way is notorious, would yield, instead of \$2,000,000, an amount estimated from six to eight million dollars. Therefore, in our calculations, let us add \$4,000,000. That would bring the total to \$43,180,687. Within the same time period counties and townships would spend \$10,000,000, creating a new total of \$53,180,687. The 1918 duplicate upon which assessments will be made will be easily 6 per cent in excess of the 1918 duplicate so that an additional 6 per cent must be calculated in consequence, making in all, the staggering total of over \$56,180,687, which can be disbursed by the tax-payers in the state during 1918 for roads only."

"Illinois voted \$50,000,000 through a bond issue which ran 20 years and the money is to be spent in five years. Michigan \$50,000,000 which is to be paid for in 10 years and which is to be disbursed in five years. Pennsylvania \$40,000,000 spread over a five year term and yet it is proposed to collect from officials in Ohio an amount equal to assess taxes in amounts which will double the expenditure of more money in one year than the Pennsylvania fund which will be spent in five years."

"Nor is that all. On Wednesday afternoon, within a few minutes after its introduction, a bill was passed without hearing, going away with the highway advisory board. These four men serve without salary. They are paid a per diem rate of \$10 for the time they act, up to 100 miles which does not exceed one or two days a week. The advisory board was created just now, so that no one man, no matter who he might be, could have an influence right to obstruct great numbers of legislation each year. They were appointed from the four corners of the state in order to prevent geographical concentration in the highway issues authorized.

If this program is carried out, inflation in prices will be inevitable, construction work will be congested, corruption is more than a possibility, and the good roads movement highly detrimental to our social and industrial development will have been set back on the conclusion of peace."

REPRESENT AFRICAN REPUBLIC AT PARIS

C. B. D. King, above, and M. R. Dunbar.

Liberia, little African republic, is represented at the peace conference by two colored men, C. B. D. King, Secretary of state, and M. R. Dunbar. Their country has one seat at the table and the men have alternated in representing their people. Liberia is located on the west coast of Africa and has an area of 40,000 square miles, about that of Guatemala.

SAUOONISTS MAY SELL ON MAY 26

But License For That Day Would Cost \$305, Attorney General Price Rules.

(Associated Press Telegram)

Columbus, May 9.—Attorney-General John J. Price, in a ruling to the state liquor license commission today, ruled that saloons may operate in Ohio on May 26, the first day of the new liquor year.

It will cost them \$305, however, so that probably the majority will not want to go to that expense for one day sales.

Applicants for license must pay \$5 application fee, \$100 license fee if permit is granted, and in June they must pay half of the annual \$1,000 Aiken tax to County Auditors. Of the \$500 to be paid, County Auditors must return refunds to persons entitled to them, but must keep a minimum of \$200 even if the saloon was operated only one day. This makes a total cost of \$305 to the lawful operation of a saloon for the one day of May 26.

Members of the liquor commission expressed the opinion that many, particularly downtown saloons in large cities will avail themselves of this opportunity.

(Associated Press Telegram)

Washington, May 9.—Although results reported last night and this morning did much to give apprehension felt by the treasury officials to the success of the Victory loan, it was pointed out that even if the subscription figures come in today, and tomorrow with the same speed shown during the next two days, there still will be left a billion dollars that must come in as a result of the final count of the goal of \$1,000,000,000 to be reached.

Even though big corporations make heavy, heavy contributions, the purchases of the treasury are steady, and the amount per month is increasing, the financial condition of the loan does not seem to be large enough to warrant a continuation of the loan.

Considerable interest had developed today in the race between St. Louis, Minneapolis and New York to be the first district to subscribe its quota. The latest percentage figures announced show the districts standing in the race come.

MARKETS OFFER NEW VEGETABLES

Appetizing Array of Delicacies Are Listed For Saturday in Local Stores and Markets.

The produce market is now offering all of the summer vegetables as well as green fruits.

New peas, string beans, beans and strawberries from the Southern markets will be featured in local retail stores and markets Saturday.

Fresh eggs are \$1.40 for 34 doz. and 40¢ a dozen, and country butter for 50¢ lb. and 60¢ a pound.

Tomato plants are offered at from 25 cents to \$1.00 a dozen, according to size, and cabbage plants are 15 cents a dozen.

Begonias plants are selling from 15 to 25 cents a piece.

FIND CONSPIRACY TO PRECIPITATE ANARCHY

(ADMITTED FROM TELEGRAM)

London, May 9.—A conspiracy to poison British soldiers by mixing in a sedative to demobilize themselves has been discovered, according to the Daily Mail. The premises of various persons have been searched and documents seized.

The stations involved, the newspaper says, include four in France and seven in England, while the persons in each house have been identified with a view to inciting them to seize the arms and imitate the soldiers and poison them.

The object of the plot is stated to be to compel the government to use force if the predicted disorders should occur, the organizers being that it's bound to precipitate anarchy.

HARTUPEE RETURNS TO U. S.

Word has been received of the arrival in New York of Harry E. Hartupee of 35 Webb street. He has been in service with the 28th division, sent in March to his mother, Mrs. James E. Hartupee was seriously ill and word was sent for him to return home. He was released from service with the division, but had just arrived in New York. His mother is recovering and is able to be up.

COMMENCEMENT DATE IS JUNE 12

This Year's Senior Class
Now Numbers 121—Bacalaureate Sermon By Rev. Paul E. Kemper.

The dates for the annual commencement exercises at the Newark High School have been fixed. On Sunday, June 8, the baccalaureate sermon will be preached in the High School Auditorium by Rev. Paul E. Kemper, pastor of the Neal Avenue M. E. church.

The graduation exercises will be held in the school on Thursday evening, June 12. The senior class now numbers 121.

NEWARK STPG. CO. INCREASES CAPITAL

The Newark Stamping & Foundry company has increased its capitalization from \$15,000 to \$100,000.

The company recently purchased the former department of the May-Pfeiffer company of Akron, and those fixtures are being manufactured at the location of the Newark Stamping & Foundry company in St. Clair street. The location is temporary, however, as the company is erecting a building to house the furnace production and it is nearly completed.

Milady's Boudoir

Sunner Tanin is passed. It is no longer considered the thing to exert all of ones powers to acquire a leathery coat of tan which, to say the least, is doubtfully becoming. And the poor skin, how it suffers and grows unsightly because of the lack of com-

fort, when on the part of the owner. Then, when the cooler months come and low-necked gowns are worn, the scars of the summer sun remain and instead of the beholder thinking of the summer at the seashore, they are doubtless giving the woman a second amount to her appearance knowing that it is no longer good form in neglect proper precautions against wind and sunburn.

One of the first precautions against sunburn is that of casting a sunshade on sunny strolls, especially after a sea bath. An old umbrella will answer the purpose if one does not wish to risk damage to a delicate vessel upon the wind blown sands and against a wet bathing suit.

Have your sunbath if you must, but do not go to the extreme and bake your self brown, thinking it is becoming and will show that you are a real sport. Men do not like to have a girl a real sport, if the truth were known, but prefer to have them beauty and womanly. An excellent way to prevent sunburn is to mask the face in cold cream and powder before braving the rays of the sun, the s's spray and the wind.

This mask need not be as conspicuous as it sounds. Plus, rub a good cold cream on the face so that it will enter all the pores and, then, after wiping it off with a very soft cloth, apply a layer of powder, letting it much on the face as you can, without it being too noticeable. Thus protected, the rays of the hottest sun will do little damage.

Our Boys and Girls

The following breakfast menus are adapted for kindergarten children, and cover as well as the general period from five to eight years, during which time strong second teeth must be provided for.

There can be a choice of rolled oats, wheatena, corn mush made of Indian meal, hominy, cream of wheat or farina, to be served with a light cream on the top of the milk, and only a slight sprinkling of sugar, if any. Stewed prunes or dates or figs, both of the latter being cut into small pieces and added to the cooked cereal before serving is good.

Baked apples or apple sauce may also be given and berries in their season. Toast from white bread, the moisture having been dried out before browning, is all right. Give two cups of the milk that they will drink either hot or cold.

If breakfast is served early or it is the custom for the children to take a lunch a ripe apple or an orange or two or three dates, with a piece of cake, an oatmeal biscuit or a very plain cookie is quite sufficient until it is time for their dinner. This should always be given to the children in the middle of the day and should be their hearty meal of the day.

Every Day Etiquette

"When a gentleman gives a present to his lady friend, should she thank him or is her accepting it enough?" asked Katherine.

"Yes. You should thank him cordially for his desire to give you a gift," replied the mother.

Why Hesitate.

Here comes the day they lay for the same reason that the doing of anything which human beings are meant to do gives them pleasure. It is an instinctive action. For the same reason a dog wags his tail when it is pleased. Even humans, when pleased with themselves, want to sing, or whistle or dance, or express their emotions in some way.

Lime Water.

Soak one handful of lime with about one half pint of water, stir well; add one quart of water and stir thoroughly; allow it to stand, decant closely and pour the water away, then add one gallon of fresh, clear distilled water or rain water to the washed lime; shake often for a day or two and let settle.

Fish Values.

By treating fish oil with hydrogen a chemist has produced an oil suitable for food purposes and a solid substance closely resembling lard, which is tasteless.

Natural Tone

THE Cheney's tone is nature's own
—as pure and joyous as the song
of birds.

"I Want to See Every American Own His Own Home."

--U. S. Department of Labor

A great many people have believed that in order to build a home, it was necessary to have a lot of money. Nothing could be further from the facts. We will tell you how, with just a little money, you can build your home now, and pay for it while you live in it, like rent. The only difference being that you will be paying rent to yourself and not to a landlord, and in a few years you will really own your own home, and with surprisingly little effort.

OUR SERVICE DEPARTMENT

We have set aside a room for you in our office, where you can pick out from a magnificent portfolio containing over 200 photographic plans, the house you want, or the garage or farm building you have needed. Furthermore, we can give you the cost of any design you may select and give you your choice of many variations in inside woodwork and finish.

The only way you can get the benefit of this Service Department is for you to use it. Make this department your headquarters and come in and look over the wealth of information on building we have assembled for your use.

Our office is just north of the square and we are open daily from 7 a. m. until 5:30 p. m.

KNAUBER URGES ELECTRIC TURBINE AT HOSPITAL SITE

Newark Councilman Shows Advantage of Black Hand Tuberculosis Hospital for Five Counties.

When the commissioners of five counties visit Newark, Saturday, to consider the construction of a hospital for tubercular patients, they will be presented with a proposal to locate the hospital at Black Hand.

An inspection trip to a prospective site on the Shelling farm at Black Hand will also be made. A letter has been received by the local commissioners from Auditor J. E. Lyons of Coshocton county, stating that the commissioners of Coshocton county feel that the need for a tubercular hospital is not sufficient to authorize them to entertain the proposition of constructing a hospital at the present time.

The site proposed is one of the most beautiful in central Ohio. Besides its advantage from a scenic and health standpoint it is located near enough to the Licking river so that it will be possible to harness this stream and produce electrical energy enough to provide all the power current necessary for the whole institution as well as a surplus which could be disposed of to industries in that vicinity.

It is declared that at low-water stage the flow of water is sufficient to produce 115 horsepower which is ample for operating a turbine generator which would produce an abundance of electrical energy.

The tract at Black Hand which is proposed as the site for the hospital contains 60 acres and includes the Black Hand rock, famous in central Ohio Indian legends, and the black hand tunnel of the Ohio Electric system which was the first electric tunnel in the world.

The tract extends north from the river to the public road, and is well forested with pine trees which are regarded as beneficial to victims of lung disorders. The water supply in the vicinity is ample for all purposes.

Councilman Frank Knauber, who in 1918 proposed that the city harness the Licking river at that point, gathered considerable data on the subject and he has made public figures on the potential power in the stream as prepared by City Engineer Charles Wells from federal statistics. The figures follow:

The horse power developed by constructing a 20-foot dam at Black Hand would vary from a maximum of 13,000 during the time of extreme high water

AFTER CLOUDS COMES SUNSHINE.
AFTER DESPONDENCY COMES JOY.
AFTER SICKNESS COMES HEALTH.
AFTER WEAKNESS COMES STRENGTH.

In the spring when you're "all in"—fagged out—blood thin, if you will turn to Nature's remedy, a tonic made from wild roots and barks, which has stood fifty years as the best spring tonic—you will find strength regained. No need to tell you it's Dr. Pierce's Golden Medical Discovery, put up in tablet or liquid form, and sold by every druggist in the land. After a hard winter—shut up indoors, your blood needs a temperance tonic, a tissue builder and blood-makers such as this "Medical Discovery" of Dr. Pierce's.

Ashland, Ohio—"My little girl, up to the time she was seven, suffered with stomach trouble. She was weak and puny all the time, nothing the doctors gave her for her nor anything I gave her seemed to help her until I began giving her Dr. Pierce's Golden Medical Discovery and this medicine completely cured her stomach trouble and she is now growing into a strong, healthy child."—Mrs. Clyde J. Warren, 377 West St.

Every Woman Needs IRON at Times

If women would only take Nuxated Iron when they feel weak, run-down, tired out—when they are pale, anaemic, listless, etc., they would soon find that those who might readily build up their red corpuscles, become rechecked, strong and healthy and much more attractive in every way. The healthy glow of youth leaves their skin and their charm and vivacity depart. A two weeks course of Nuxated Iron strengthens, tones and cures—restores general health and energy restored. At all good druggists.

NUXATED IRON

Help Your Digestion
When cold-drawn, relieve the indigestion with

MADE BY SCOTT & BOWME
MAKERS OF SCOTT'S SODA

to 115 horse-power during September, October, November, and only part of December.

These figures are based on gaugings made by the United States geological survey at Pleasant Valley. A 70 per cent efficiency is claimed to be on the gate side.

Makers of turbine and water-wheels claim an efficiency of 90 per cent to 90 per cent, but it is said that in actual use this efficiency drops to 50 per cent.

During March, 1918, the discharge of water at Pleasant Valley was 492,800 cubic feet per minute, and during September, October, November, and part of December, 4320 gallons per minute.

The old dam at Black Hand was 16 feet high. Knauber proposed a 20-foot dam. The horse-power needed for street lighting is 500. If the hospital is built there and a dam is installed enough electricity could be generated to light all building and grounds, power for the hospital cooking, and if deemed advisable the building could also be furnished by electricity. Current could be furnished to the farming community and to several manufacturers close by, bringing in quite a bit of revenue, Knauber points out.

ASKS NAVY VETERAN TO AID RECRUITING

Every man, who has served in the navy, is called upon to aid in recruiting for the navy. They are asked to bring two men into the navy, according to H. W. Wilding, recruiting officer for the navy located at Zanesville.

The men who have already served are asked to aid in the recruiting. Men are needed to man the battleships and other ships that are launched daily.

The navy offers many advantages. The sailor is always sure of his job as long as he renders faithful service and strikes and hard times do not affect him. He travels over the world at the expense of Uncle Sam, and if he is sick or injured he is well cared for in the naval hospital and his pay goes on. His food is the best money can buy and is supplied by the government.

Recruits are asked to come to 534 1/2 Main street Zanesville and sign up.

TRAFFIC SIGNS ARE PUT UP IN ELMWOOD

The Licking Creamery company, operating with the city administration, has located a red light at the intersection of the alley between Elmwood Court and the alley between Third and Fourth street. This company has also repainted the warning signs originally furnished and erected by it.

An unusually large amount of traffic passes through these alleys or courts in the course of a day's time. The administration appreciates the precautions taken by the company," said Mayor Atherton Friday. "The danger signals will help reduce the probability of accidents to a minimum."

CORDAGE COMPANY LEASES WAREHOUSE

The old street car barns and later the skating rink in Cedar street has been leased by the Newark Cordage company.

The deal was closed yesterday by C. V. Wise, president and manager of the company, and it will be used as a warehouse by the Newark Cordage company, according to Mr. Wise. The building is owned by W. C. Collins, and the terms of lease is for two years.

The building will be used as the distribution point for the company's sales. It is along the railroad tracks and faces on Cedar street.

COX ASKS WAR DEPT. TO PERMIT PARADE

Plans are being perfected for the parade of the 15th field artillery brigade, which includes the 322d, 323d and 324th regiments at Columbus.

Governor Cox, on Thursday at the request of parents and relatives of the soldiers asked the war department to permit the brigade to stop over in Columbus for a parade enroute to Camp Sherman.

The brigade is expected to arrive from France within two weeks.

RAIN DELAYS TEAMS IN CLEAN-UP WORK

The work of removing the rubbish in the clean-up campaign was delayed a half a day yesterday, owing to the heavy fall of rain. An effort will be made to make up the lost time on the schedule today.

Yesterday the territory east of Raccoon creek, north of the E. & O. and Pennsylvania roads and west of

not including Fourth street was arranged for collection. Only part of this was covered.

The territory assigned for today was Fourth street, and north of the E. & O. and Pennsylvania road and west of the North Fork.

LANCASTER DENTIST KILLED BY PASSENGER

Columbus, May 8.—Two people were injured seriously when an automobile and a Central passenger train collided yesterday on South High Street. Dr. W. E. Shadrick, Lancaster, eight year old daughter and another died at Good Samaritan Hospital.

PREACHING STOP.—Longtime pastor of First Methodist church, Rev. J. E. Walker, will not preach on Saturday evening next week at Pleasant Valley, but will speak at 8 o'clock on Wednesday evening.

HANOVER MEETING.—The Hanover meeting from 2 o'clock on Sunday afternoon to 4 p.m. will be held at 10 o'clock on Monday evening.

MINUTE-MAN.—The Minute-Man, to be charged of the East Main Street Methodist church, will be given.

TO SPEAK.—The Minute-Man, to be charged of the East Main Street Methodist church, will be given.

MINUTE-MAN.—The Minute-Man, to be charged of the East Main Street Methodist church, will be given.

LUXURY TAXES.

The new "luxury taxes" that went into effect this month are causing some complaint. It must be remembered that the tax, in the case of 20 classes of articles coming under this category, is not for the whole price of the article. It is merely on the excess above a certain sum. When a woman buys a \$25.00 hat, she pays the 10 percent assessment only on \$10.00, which is the excess over \$15.00 where the tax begins to apply. The woman who has been accustomed to buying a \$25.00 hat will not feel it keenly to pay \$26.00.

It is rather surprising that the luxury tax idea was never applied more consistently before. The taxes now levied seem likely to remain in force some time. Those who feel them have an easy remedy by living simply and accepting the kind of goods that appeal to the great run of the people.

The taxes on medicinal preparations will be regarded by many as placed upon a real necessity. But the taxes on high priced clothing and house furnishings seem to hit few things that can be considered essential.

Men and boys for instance have to pay a tax on silk stockings costing in excess of \$1.00 a pair. Is there anyone who really needs to pay more than \$1.00 for a stocking? If so, he probably has income enough so that he can pay a few cents additional to the government to help meet the enormous burden of war debt. And so it goes all through the list. It does seem absurd however to put a tax on tooth paste. Toothpowder is a necessity not a luxury.

These taxes will have some effect to cut down expenditure and work for simple living. So they may work indirectly to increase thrift and promote greater additions to the capital resources of the country.

The politicians are deeply interested in scientific agriculture, particularly in the culture of plum trees. Also the aforesaid pols are firmly convinced that by careful and study they can make two plums grow where one grew before.

WORSE THIS SPRING

Owing to Run-down Condition Caused by the War.

Anxieties and worries have had a bad effect on the nervous system and damage the bodily functions especially digestion and excretion. Who escaped them during the war? They have many consequences, paleness, lack of vitality, worse than this.

The very best medicine to take now is Balsam. It strengthens and tones the nerves. It gives a good tone to the lips and cheeks. It is the greatest vitalizer giving healthy activity to the entire body.

This good medicine, which is a real tonic, makes the blood purer and the nervous system more active. It is indispensable to perfect health. It promptly relieves mental and physical exhaustion creates an appetite and promotes sweet refreshing sleep. Balsam is in the form of choice selected tablets and is pleasant to take.

Made by C. L. HOOD CO., Lowell, Mass.

HOW WAR SENTIMENT WAS UNIFIED.

Members of the incoming Congress threaten a further investigation of the conduct of the war and war supply work. No doubt they will find plenty of faults in the hasty organized war machine. They think they can make political capital out of it. But most people realize that a peace-loving nation can't suddenly raise an enormous army, and equip and transport it, without making a lot of mistakes.

It is doubtful if the conduct of the war figures much in the presidential campaign. The people want a solution of future problems, not endless recriminations over history. However, since some folks continue to talk about defects in the war work, it is well to consider intelligently all phases of the subject. One should recall the many aspects in which the government showed a skill and insight which politicians and statesmen often lack.

Prominent among the big government achievements of the war was its information and publicity work. At the beginning of the war a large section of the people did not see why it was necessary to fight. The government organized a far-reaching campaign to unify public sentiment.

There were newspaper, poster, and other campaigns with printers' ink. The Four Minute Speakers aroused the people. The camps, the munition and shipping centers, the working masses, heard patriotic addresses. The movies and other theaters contributed enormously.

The result was marvellous. Public sentiment who was revolutionized in a few months. It was one of the big factors in the winning of the war. It counted more than airplanes or artillery, because it put the fighting spirit into the hearts of the soldiers, and that was what won. The men of the head of the government showed a superb gift of leadership and for making a noble and righteous cause popular.

TRIAL OF THE EX-KAISER.

(Richmond News Leader.)

Unexpected in the light of the learned opinion from France's most erudite lawyers, the decision of the allied conference to bring the ex-kaiser to trial reflects less, we take it, a desire for vengeance than an determination to establish a real blame for the war.

There is in France, in Belgium and in Britain a strong sentiment favoring the trial of the former German emperor or to revenge the murders committed by Germany during the war. This sentiment was recognized by all British parties during the recent parliamentary campaign. All except the Radicals pledged themselves to bring to justice the trial of the former German emperor for the war.

We fully sympathize with the

spirit of the League of Nations.

But the trial of the ex-kaiser is not

the same as the trial of the

war罪犯.

It is the trial of the

war罪犯.

GERMAN READS REPLY TO CLEMENCEAU SPEECH

ASSOCIATED PRESS TELEGRAM
Versailles, Wednesday, May 7.—While the delegates of the various nations were finding their places at the peace table, Premier Clemenceau and President Wilson engaged in an animated conversation. Premier Lloyd George and André J. Balfour, the British foreign secretary, were included in a chat. General Paderewski during this interval made a belated appearance.

After a five minutes' wait, Colonel Henry, the French liaison officer, appeared in the chamber, heralding the approach of the German delegation. The Germans entered the door an instant later, preceded by a functionary of the French government wearing the glittering chain of his office, who announced in a loud voice:

"Mesdemois, the German delegates."

There was some little confusion among the Germans while they were finding their proper places. Count von Brockdorff-Rantzau, who entered gloves in hand, took the center chair, with his five colleagues, and Director von Stockhamer of the foreign office flanking him on either hand. Five German secretaries and their interpreters took their places at tables in the rear. Premier Clemenceau, president of the conference, then arose and declared the session opened. He started immediately upon his opening speech, pausing to permit this to be translated into English and German by French interpreters. The translation into the German language was decidedly faulty and halting. The premier then addressed the Germans again to explain the conditions of the negotiations, telling them that there would be no oral discussion permitted and that they must submit their observations in writing within 15 days.

The premier then read the headings of the treaty and made his suggestion that the Germans within a few days might be ready to commence the discussion of certain sections of the treaty.

When the premier concluded with the customary pleasantries, "Has anyone observations to make?"

Count von Brockdorff-Rantzau raised his hand, but he was not recognized until the premier's remarks had been translated. During the translation, Paul Dutasta, the general secretary of the assembly, proceeded almost unnoticed across the open space in the center of the rectangle and deposited a copy of the peace treaty before the head of the German delegation.

"Count von Brockdorff-Rantzau has the floor," said Premier Clemenceau as soon as the translation had been finished.

The head of the German delegation did not arise like Premier Clemenceau reading his speech sitting, but it was remarked by some that this apparent courtesy to his adversaries may have been dictated by his physical condition.

After the first intermission, the count's speech had been delivered in German and interpreter began the French translation. The words did not reach the head of the table distinctly and Premier Clemenceau called for louder utterance. He was equally satisfied with the second attempt of the interpreter and two of the German officials finally left their places with the German delegation and moved across to the head of the table to deliver the German plenipotentiary's bold and frequently offensive passages sentence by sentence, right into the faces of Premiers Clemenceau, Lloyd George and President Wilson.

Count von Brockdorff-Rantzau guttural German repeatedly rang out in strong emphasis on particularly gross orson phrases or words of his speech, as for instance when he declared that the admission by Germany of sole guilt for the war would be "cruel" and when he forbade the allies to speak of "cruelty and savagery" in view of the sufferings and deaths of German civilians under the blockade and after the armistice.

The interpreter who gave the English version made the most of his opportunity both in voice and selection of words, and the bold and unrepentant declarations of the German peace delegates as thus brought out gave rise to a murmur of indignation in the chamber.

ALLIES MAY RECOGNIZE NEW OMSK GOVERNMENT

Washington, May 9.—Urgent need of \$20,000,000 for immediate use on the Siberian railroad may lead to earlier recognition of the Omsk government than had been planned by the representatives of the associated governments in Paris. It was learned yesterday from an authoritative source that efforts by representatives of the state department to raise the needed funds before recognition has been accorded the government have failed, it is said, and the American representatives in Paris have been notified that recognition would have to precede the loan.

GAS IN THE STOMACH IS DANGEROUS

Recommend Daily Use of Magnesia to Overcome Trouble, Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastric ulcers by serious stomach ulcers. Food ferments and sour, distending the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

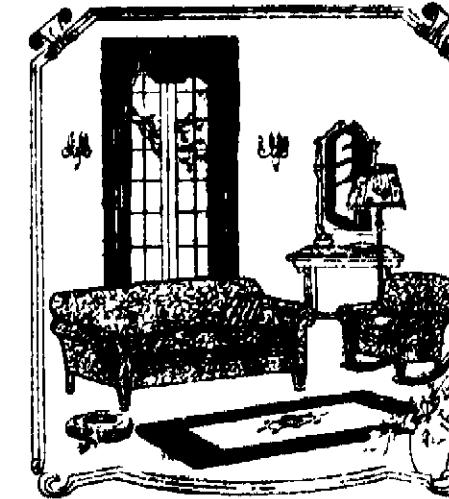

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Dissolved Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will draw the gas and wind right out of the body system in the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Dissolved Magnesia on powder or tablet form—never liquid or milk—is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

ADMINISTRATOR'S SALE.

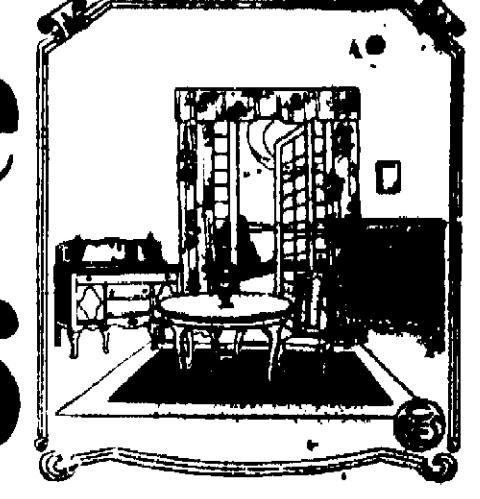

Pursuant to an order of the Probate Court of Licking county, Ohio, the administrator will offer for sale at public auction at the south door of (Continued) the court house at Newark, Ohio at 10:30 o'clock a.m. on

Saturday, May 10, 1919,

the following described real estate:

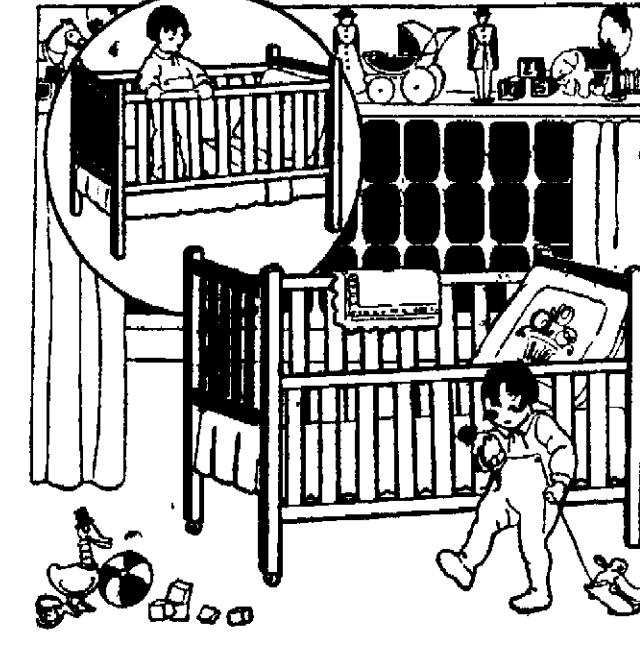

Credit makes possible The HOME HARMONIOUS

A Message To Every Thinking Man and Woman

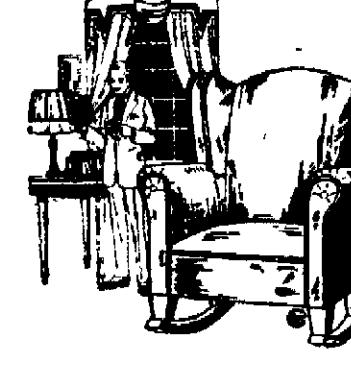

HOW many people fail to realize that Home harbors the great secret of contentment and enjoyment of life! How many people never experience that joyful relaxation which the right kind of home permits after the day's work is done! And why? In most cases because they feel that they cannot afford to add that piece here and there which will mean greater comfort and increased refinement. They fail to realize that NOW is the time that they can and should begin.

NEW DROP-END BABY CRIB \$6.98 IT COSTS YOU LESS

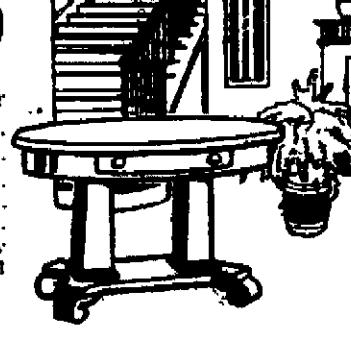

THIS crib has a brand new feature which we believe makes it the most desirable on the market. As shown in the illustration, one end slides down, making it very convenient in many ways. The crib is strongly built and finished in white enamel. A big value.

BIG ROCKER \$18.75

Here is a fine rocker for the price. Upholstered in best grade of imitation leather. The height of comfort. A very attractive model.

FAVORITE TABLE \$30

THESE tables are ideal for library or living room. They are of unique design and are excellently finished in oak. We have an unusually large assortment of library tables at this time, many of which offer you unusual money-saving opportunities.

VETERANS OF 148TH FORM ORGANIZATION

ASSOCIATED PRESS TELEGRAM
Columbus, May 8.—A commemoration was made yesterday in Columbus on the 11th anniversary of the entry of the 148th Ohio into the service by Colonel Robert Hubbell of Dayton, president Major R. O. Nichols of Columbus, vice-president, and Lieutenant Alfred M. Purlow of Cleveland, secretary. An interment of soldiers made at the 147th Cavalry, 2000 w^t regiments. One hundred and two veterans were present. These two regiments, which had been mustered for an interval of three years,

to allow their organization was delayed by the First World War.

This organization consists of

the 147th Cavalry and every member

AMUSEMENTS

AUDITORIUM

A Wonderful Picture.
Few readers of fiction have not enjoyed "The Shepherd of the Hills," the Harold Bell Wright novel which some years ago was the biggest seller in the country and so far has reached the two million mark and is still selling and has not surpassed by none, excepting perhaps "Uncle Tom's Cabin." Now the story has been made for the screen, and last night with opening run, the P. R. O. sign was displayed.

The picture in ten reels tells the lonely story of "Old Matt" and

"Young Matt," Sammy Lewis and the gentle Shepherd of the Hills and all the big mountain folks, are realized really correctly in what the large audience last evening conceded the best

HARRY CAREY

In his Big, New Western Drama,
"BARE FISTS"

If you can't get out on the range and ride a horse, go see Harry Carey in his new, big, whirlwind Western drama—the story of a man who promised his mother he'd never shoot, but had to take his promise back! It's a thriller!

and the result has been a work of art in the field of motion pictures.

A simple love story, typically American, the scenes are set in the Ozark Mountains of Missouri to which region comes the world weary man who finds there a deep sorrow left by his long lost son. In his endeavor to atone for his son's actions he gains the title of "The Shepherd of the Hills." The scene background for this simple story presents a series of pictures dazzling

as a result of the war. The problem, though serious, is dealt with in a comedy vein. Among other bookings at the Lyric are to be "Hearts of Humanity" and the big Mack Sennett production, "Yankee Doodle in Berlin." With the latter will come to Cincinnati a chorus of 20 Mack Sennett beauties—the real live girls in all their dash and beauty. This is the first movie carrying a live chorus!

The above is from the Cincinnati Entertainer. Newark will see "Oh, You Women!" Monday, with "Yankee Doodle" coming later.

Regarding the Star.

Harry Carey, the star of "Bare Fists," the Universal Special Attraction to be shown at the Auditorium theatre Sunday, was past through law school before he suddenly found that he did not want to become a lawyer after all. Instead he embarked almost overnight on the stage career which finally brought him to the screen as one of the foremost of Westerners.

Carey's story upsets most of the traditions that surround things Western. He was a born product purely, and more than that, an Easterner. Most remarkable of all, he was born and brought up in New York, popularly supposed to be the worst "Tenderfoot" spot in the Western hemisphere.

Carey at first planned a political career, having many friends and relatives in politics in New York. With that ambition in view he decided to become a lawyer. He was through his third year in the New York University Law School when he suddenly decided to go on the stage.

The better 'Ole.

"The Better 'Ole" is the romance of Old Bill, the big comedy attraction of the season. It is now playing to capacity houses at the Cort Theatre in New York City, and five road companies are presenting it in various parts of the country. And now, on the screen you will have the opportunity at the Auditorium theatre soon of seeing this corking good comedy of the war. It shows the men in the trenches as they were during the big conflict, and it is not overdrawn in any particular. There are no heroes, no forced moments— everything is natural and unstilted.

ALHAMBRA.

Farrar Tonight.

In "The Hell Cat," Geraldine Farrar's second Goldwyn Picture, announced today, the international celebrity plays a girl who is half-Spanish and half-Irish. She is Pancha O'Brien, daughter of a Wyoming sheep raiser, and, seated on the porch of the ranch house, she idly strums a guitar in many of the scenes. Anyone knows that Miss Farrar could never be silent where there is music in the air. When she herself supplies the accompaniment it would be impossible for her not to sing. And sing she did during the days at the ranch near Coda, Wyoming, where the entire production was made.

It was a hard time for all concerned, but Geraldine Farrar sings as easily as she breathes. Not for a long time did she realize that anyone was listening to her. When she did, she said she wouldn't do it any more. There was a storm of protest at this, and finally all promised to listen while they worked. The engagement runs over Saturday.

Kiddies' Morning Matinee.

Manager Fenberg of the Auditorium, always looking out for the welfare of his patrons, now has arranged with Manager Carl Hewitt, who is playing the Auditorium with the 10 reel feature "The Shepherd of the Hills" to give a special "Kiddies" morning matinee on Saturday a.m., starting at 10. This is for school children of the Newark schools and at that time they will be admitted for only a dime. This is the first time that Mr. Hewitt has allowed this performance to be given, but after Mr. Fenberg pleaded for the Kiddies, he couldn't very well refuse and at 10 tomorrow at the Auditorium Harold Bell Wright's greatest photoplay story "The Shepherd of the Hills" will be given a special presentation. Parents can send the kiddies for special attention to their safety and comfort will be seen too by the management.

The Foolish Age.

The life of Louise Fazenda, that is, in the Mack Sennett comedies is a trying one. For a girl to be as pretty as Louise is apt to be thrown down by some lothario for some one more beautiful, in nearly every Mack Sen-

nett comedy in which she plays, is

certainly strenuous.

Louise is trying beneath her make-up and the audience, to see her in those character parts, can readily sympathize with the man who throws her down when a beautiful girl comes into his life.

Louise says that after every picture she gets up and she goes up and down to dress up like a million dollars to satisfy herself that in real life she is entirely the opposite from the parts she plays.

She will appear in a new Paramount

Mack Sennett comedy entitled "The Foolish Age" at the Auditorium on Sunday.

RICK AT SPEEDWAY BUT NOT AS RACER

Indianapolis, May 9.—Clifton H. V. Bickelbacher, American's Ace of Aces, has accepted the invitation extended to him by the Indianapolis Motor Speedway to compete in the 500-mile race next Saturday. He is expected to make his debut in that event.

The last time Clifton H. V. Bickelbacher appeared on the Indianapolis course, he was in the role of a spectator. He was suddenly taken out of his track and into a room in the city council rooms the day before the race through his efforts to save the life of a man who had been shot in the head.

Clifton H. V. Bickelbacher, who was born in Indianapolis, Indiana, is a Swedesville native. He is a racing engineer since he was a boy because of a track that had been one of his early interests. Clifton H. V. Bickelbacher, who is a doctor of medicine, is a graduate of the University of Michigan.

Captain Bickelbacher's career will give thousands of spectators who will attend the race a thrill throughout the Auto-Lite plants brightened Thursday. About 10,000 men are out because of the war emergency to work in munitions plants. Union leaders issued a statement denying that they were using the closed shop at the Overland and Auto-Lite plants. They said they looked with favor on reports reaching them that John N. Willys, president of the Overland, was to return to Toledo.

Auto President Clarence A. Earl of the Overland issued a statement declaring that the wages at the Overland plant average \$350,000 a week, and pointing out that "every day's proportion of these wages is permanently lost to men and their families who are out of work and permanently lost to the nation."

The delegates said they had expected from the newspaper reports that the demands in many respects would be far-reaching but were not prepared for the terms as actually laid down in the printed copy of the document.

Safe Propaganda.

Blitzers—What's the idea of a little farm like yours with a massive safe like that?

Chinkers—It helps the morale of our creditors.—Boston Globe.

SAFETY PROPAGANDA

Washington, May 9.—Prospects of a conference in an attempt to settle the hour differences at the Willys-Overland and the Auto-Lite plants brightened Thursday. About 10,000 men are out because of the war emergency to work in munitions plants. Union leaders issued a statement denying that they were using the closed shop at the Overland and Auto-Lite plants. They said they looked with favor on reports reaching them that John N. Willys, president of the Overland, was to return to Toledo.

Auto President Clarence A. Earl of the Overland issued a statement declaring that the wages at the Overland plant average \$350,000 a week, and pointing out that "every day's proportion of these wages is permanently lost to men and their families who are out of work and permanently lost to the nation."

The delegates said they had expected from the newspaper reports that the demands in many respects would be far-reaching but were not prepared for the terms as actually laid down in the printed copy of the document.

18537—How Ya Gon Na Keep Em Down On The Farm—How are You Going to Wet Your Whistle When the Whole Darn World Goes Dry.

John J. Carroll

SOCIAL AFFAIRS

Miss Louise Pieri entertained with a dinner party at her home in Wilson street Thursday evening for the pleasure of her two brothers, Sergeant George Pieri, who served with the 37th division, and Sergeant John Pieri, who served with the 31st division.

The house was profusely arranged with American flags. The table was centered with a candelabra bearing red, white and blue candles, the light of which was reflected in a large mirror. Festoons of red, white and blue ribbon were used and the favors were miniature flags. A dinner of four courses was served to ten guests.

For the pleasure of Mrs. Curtis Messick, Mrs. Wm. Evans and Miss Maude Orr delightfully entertained at the lat-

ter's home Wednesday afternoon, with a miscellaneous sewing and music, after which refreshments were served the following day.

Mr. Richard Black, Mrs. James Slough, Mrs. Burrell Ruffner, Mrs. Paul Kochendorfer, Mrs. Wm. Evans, Mrs. Curtis Messick, Mrs. Eugene Blaize, Mrs. H. B. Melling, Misses Maude Orr, Marion Evans, Viva Orr, Mary Ruffner, and Ruth Ruffner.

Ross Tedrick, aged 32 years, died Thursday at midnight at his home in South High street, Columbus. Death followed a seven weeks illness of complications, the result of influenza. He was the son of Mr. and Mrs. Elmer Tedrick and formerly lived in this city and was an employee of the Avery-Loeb electric company. In Columbus he was associated with the Western Electric company. Surviving are his daughter Ruth Evelyn Tedrick, aged 10, his parents living in Columbus, two brothers, Damon of the home and Leslie of Mt. Vernon, and one sister Mrs. Evelyn Baker of this city. The deceased was a member of the K. of P. Lodge.

The body was brought here today and taken in charge by the Citizens Undertaking company. Funeral services will be held Saturday afternoon at 3 o'clock and burial will be made in Cedar Hill cemetery.

George Sprice. Funeral services for George Sprice, who died Wednesday morning, were held this morning at 9 o'clock at St. Francis de Sales church and burial was made in Mt. Calvary cemetery.

Oscar C. Nelson. The funeral of Oscar C. Nelson who died Wednesday night will be held Saturday morning at 9 o'clock at St. Francis de Sales church and interment will be made in Mt. Calvary cemetery.

Eva E. Moore. Funeral services for Eva E. Moore were held this afternoon at 2 o'clock in the home of her brother J. H. Moore in Clinton street. Interment took place in Cedar Hill cemetery.

Robert Hayes. Funeral services for Robert Hayes, who died Wednesday night will be held Saturday morning at 9 o'clock at St. Francis de Sales church and interment will be made in Mt. Calvary cemetery.

In remembrance of Eric Richter, who departed this life May the 9th, 1917. Two sad years have passed and gone. But still the vacant chair, Recalls the love, the voice, the form Of the one who once sat there. If I had stayed until the last, And held your dying hand, And heard your last sigh from your heart I would not feel so bad. I had stayed with you all the time And knew the pain you bore. And I thought I could not see you die. So I went away.

For we had said to you goodbye. To part with you, I loved so dear. Twas a bitter grief, a sharp severe. Now, alas, with the sorrowing heart, dark vale I tread. For the old, old ways, the old, old ways with the dead. —Eric Richter.

Carol of Thanks. I desire to thank my friends and neighbors for their kindness during the death of my husband. Also the beautiful flowers Mrs. James Orr.

One sign of a good mother is plenty of POST TOASTIES says—Bobby.

Making A Soldier Happy

ren Chapter, R. A. M. Dinner will be served at 6 o'clock.

Cottage Prayer Meeting.

The union cottage prayer meeting has been changed and will be held at the home of Mr. and Mrs. Andrews 23 Wing street instead of 49 Wing street. Friday evening at 8 o'clock.

Condition Unchanged.

The condition of Mrs. Dolly Elben, who was injured Wednesday in an automobile accident remains unchanged. She arouses at times and seems quite natural, and then goes into heavy sleep. Mrs. Elben was taken to the City Hospital.

Will Meet With Class.

Evangelist Saunders is expected at the Woodsdale Bible class meeting this evening at 8 o'clock. On Sunday evening the mothers of the church will have a part in the program, "Mothers' Day." South Siders to Meet.

There will be a meeting of the South Side Improvement association Monday evening at 8 o'clock at the South Side hall. It is hoped that there will be a big attendance.

Police Court.

There were two drunks in police court this morning and each was fined \$5 and the costs and in default of payment were sent to the county jail.

COX LINES UP

(Continued From Page 1) 25 years. The wildest fancy has run riot. Every pretension of the past has been abandoned. The "newspapers" point of view has been ignored.

Now, gentlemen, someone in Columbus must represent those at home who haven't the time to come to Columbus to look after their interests. The laboring man in the shop who by industry and frugality is paying for his home, and the real-dirt farmer (not the professional agriculturist) who is sowing his crops, need your protection, and I make in their behalf an appeal to you.

There has been a good deal said on the subject of relief for cities. They are in trying condition, and in all fairness this is due in the main to municipal policies which cannot be criticized. The loss of revenues from the liquor traffic, the constant increase in cost of essentials, and the insistence on the part of society for more utilities of government, make it apparent that the expenses cannot be paid under the present methods of taxation, if we preserve the limitations on the tax rate which the statutes carry. The only difference between the bill which the Republican majority voted on enacting, and the substitute which is offered in its stead is this: That property is assessed all the tax it can bear now, and we must derive the additional revenues needed through methods not already invoked. The bill which I oppose accumulates in one full swoop accrued deficiencies, and the tax duplicate is to be assessed to meet them regardless of the rate. I contend that the rate should not be increased and that the funds essential to pay accumulated debt must be procured in the main by levying a tax on the property of the state.

Large industrial plants in this country which sense the importance of promoting good feeling between labor and capital, and allaying the restless spirit, are appropriating hundreds of millions of dollars to encourage the toiler to buy or build a home. When he becomes a legatee either of part of the soil of this country, we recognize that it is the product of his family, and that the government protects it for him, and his children. He has a better understanding therefore as to the relation between the citizen and government and his attitude toward the latter is more friendly.

Every subdivision can get relief without increasing taxes. No banker has questioned the soundness of the plan advanced. One would think that in the face of present financial stress, the same sense of caution which possessed the individual under similar circumstances would take hold of legislative policy. Unless you are so dead-set solid front impose your objection, we will drift into an era of financial chaos. The rates of taxation in every subdivision will climb to heights unparalleled, and we will have made a condition of unrest at a time when our every energy and thought should be intensified in an effort to allay it."

RETAIL MARKETS.

Green Fruits. Apples, 75¢ to \$1 per peck; 25¢ and 40¢ measure.
